

COMPANY SHOWROOM RENEWAL

The Company's Showroom has been renovated: a space dedicated to design ideas and solutions in a brand new and inspiring environment. This place represents Arrital's style, thus a wide and cozy room where you can feel and touch the latest novelties.

Please, kindly contact your Area Manager or Agent to organize a visit to our premises and find out more about the new concept.

MATERIOTEKA

Due to the showroom renovation, a new space fully dedicated to the design activity to be performed together with our customers has been created; a dedicated area with full samples displayers for all the range of finishes available within Arrital lines, allowing users to find the perfect match and realize their designs.
